# DRIVE RIGHT

DRIVING FAST IS POINTLESS IF YOU  
CAN'T CONTROL IT RIGHT

DriveRite, organisers for grassroots motorsports events, completed their first ever Gymkhana+Auto-X Day last month with much success. They managed to bring in a sizeable turnout, with almost half of the participants new to the sport!

Not only does that mean we'll be having safer drivers on the road, it also means that gymkhana and auto-x are slowly capturing the attention of everyday drivers! Awesome!

Backed by industry specialists like FUCHS Lubricants Singapore, Bynergy Asia Pte Ltd, Whiteline distributors SP Line Trading and Wolf's Chemical Singapore, participants were given three patterns to run before one was awarded the "The Most Flamboyant Driver of the Day", voted by the participants themselves! It's looking to be a very bright future for gymkhana and the motorsports scene as a whole and we can only hope it gets better soon.
